MANITOBA POPULATION ESTIMATES - January 1, 2001

	<u>January 01</u>	<u>October 00</u>	<u>January 00</u>
<u>POPULATION</u>	1,149,200	up 500	up 4,500
<u>NET MIGRATION</u> (January to December)		<u>2000</u>	<u>1999</u>
Interprovincial		-2,410	-1,435
Total		752	1,272

Manitoba's total population was estimated at 1,149,200 persons as of January 1, 2001, an increase of about 500 persons from the October 1, 2000 estimate of 1,148,700. Since January 1, 2000, Manitoba's total population has grown by an estimated 4,500 persons for an annual growth rate of 0.4%. Our annual growth rate of 0.4% ranked fifth when compared to other provinces and was below Canada's growth of 0.9%.

Manitoba's net interprovincial migration loss totalled -2,410 persons in 2000, about 1,000 persons more than the net loss of -1,435 persons in 1999. Manitoba gained mainly from Saskatchewan (578) during 2000 and lost mainly to Alberta (-1,361), Ontario (-1,025) and British Columbia (-395).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a net migration gain of 752 persons in 2000, which is slightly lower than the net gain of 1,272 persons in 1999.

MANITOBA POPULATION ESTIMATES - April 1, 2001

	<u>April 01</u>	<u>January 01</u>	<u>April 00</u>
<u>POPULATION</u>	1,150,100	up 900	up 3,800
<u>NET MIGRATION</u> (January to April)		<u>2001</u>	<u>2000</u>
Interprovincial		-424	355
Total		432	1,089

Manitoba's total population was estimated at 1,150,100 persons as of April 1, 2001, an increase of about 900 persons from the January 1, 2001 estimate of 1,149,200. Since April 1, 2000, Manitoba's total population has grown by an estimated 3,800 persons for an annual growth rate of 0.3%. Our annual growth rate of 0.3% ranked sixth when compared to other provinces and was below Canada's growth of 0.9%.

Manitoba's net interprovincial migration loss totalled -424 persons in the first quarter of 2001, about 779 persons less than the net gain of 355 persons in the first quarter of 2000. In the first quarter of 2001, Manitoba gained mainly from Saskatchewan (327) and lost mainly to Alberta (-495), Ontario (-163) and British Columbia (-143).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a first quarter net migration gain of 432 persons in 2001, which is considerably lower than the first quarter net gain of 1,089 persons in 2000.

MANITOBA POPULATION ESTIMATES - July 1, 2001

	<u>July 01</u>	<u>April 01</u>	<u>July 00</u>
<u>POPULATION</u>	1,150,000	up 1,700	up 4,000
<u>NET MIGRATION</u> (January to July)		<u>2001</u>	<u>2000</u>
Interprovincial		-1,233	-1,763
Total		845	252

Manitoba's total population was estimated at 1,150,000 persons as of July 1, 2001, an increase of about 1,700 persons from the April 1, 2001 estimate of 1,148,300. Since July 1, 2000, Manitoba's total population has grown by an estimated 4,000 persons for an annual growth rate of 0.4%. Our annual growth rate of 0.4% ranked fifth when compared to other provinces and was below Canada's growth of 1.0%.

Manitoba's net interprovincial migration loss totalled -1,233 persons in the first two quarters of 2001, about 530 persons less than the net loss of -1,763 persons in the first two quarters of 2000. In the first half of 2001, Manitoba gained mainly from Saskatchewan (505) and lost mainly to Alberta (-1,046), British Columbia (-448) and Ontario (-262).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded a first two quarters net migration gain of 845 persons in 2001, which is considerably higher than the first half net gain of 252 persons in 2000.

Note: Statistics Canada has revised some population components from third quarter 1999 to first quarter 2001.

QUARTERLY POPULATION STATISTICS REPORT

OCTOBER 2001

**MANITOBA
BUREAU OF STATISTICS**

**RIGHT ANSWERS
RIGHT NOW**

DECEMBER 20, 2001

MANITOBA POPULATION ESTIMATES - October 1, 2001

	<u>October 01</u>	<u>July 01</u>	<u>October 00</u>
<u>POPULATION</u>	1,149,100	down 900	up 2,100
<u>NET MIGRATION</u> (January to October)		<u>2001</u>	<u>2000</u>
Interprovincial		-3,448	-2,931
Total		-1,261	-89

Manitoba's total population was estimated at 1,149,100 persons as of October 1, 2001, a decrease of about 900 persons from the July 1, 2001 estimate of 1,150,000. This was our first quarterly population decline since the third quarter of 1997, when the loss was 600 persons. Manitoba has had four previous quarterly population declines over the last fifteen years, all of which occurred in the third quarter, when interprovincial migration outflows tend to peak.

But Manitoba's population is still growing on an annual basis. Since October 1, 2000, Manitoba's total population has grown by an estimated 2,100 persons for an annual growth rate of 0.2%. Our annual growth rate of 0.2% ranked sixth when compared to other provinces and was below Canada's growth of 1.0%.

This latest quarterly population decline was again driven by higher net loss due to interprovincial migration. We recorded a net loss of 2,215 persons to other provinces in the third quarter of 2001, up sharply from a net loss of 1,168 persons in the same quarter last year. Manitoba's net interprovincial migration loss totalled 3,448 persons in the first three quarters of 2001, about 517 persons more than the net loss of 2,931 persons in the first three quarters of 2000. In the first three quarters of 2001, Manitoba gained mainly from Saskatchewan (500) and lost mainly to Alberta (-2,311), Ontario (-979) and British Columbia (-740).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall first three quarters net migration loss of 1,261 persons in 2001, well above the net loss of just 89 persons in the first three quarters of 2000.

Our current total net migration loss of 1,261 persons is high compared with the generally improving trend we have seen over the last two years, but it is in fact a smaller loss than the prevailing average over the last decade. The average loss for the first three quarters of each year between 1990 and 1999 was almost 15% higher at 1,440 persons.
